We see that her grade is not where it should be and we would like to see what is going on. Best way to contact me is email [REDACTED]@gmail.com or her fathers email [REDACTED]@gmail.com. Her father is off work today so if you have anything this afternoon I know it is short notice, but we would be able to come.

**Subject:** Re: [REDACTED] Grade

Good morning,

I have included [REDACTED]'s grades for all assignments, including her test she took yesterday. She currently has a 56 in my class.

Next week, she will want to attend tutorials to understand the concepts she missed on her Unit 1 Cumulative Assessment so that she will be prepared to take and pass the retest which will be given Friday either before or after school.

If she completes her corrections during reteach in tutorials, she would be able to bring her 31 on the assessment up to a 54; however the retest gives her the ability to try to get a 70 on this assessment. This process will bring her grade up to approximately a 60 in my class.

**Subject:** [REDACTED] Grade

FROM [REDACTED]@gmail.com

Good Morning,

I was emailing to see if [REDACTED]'s grade is going to go up. I made a deal with her about homecoming that if she wanted to go out with her friends afterward all her grades had to be brought up. She worked really hard all week and I noticed three of her grades are now in the 80s but when I asked her about your class, she said it must not be updated, that it should be more than a 47. If you could please email me back and let me know if when the grades are put in if she is going to have a passing grade?

If you need to call me that would work too [REDACTED] I am available all day.

[REDACTED]
